

ASIM ALI

AI Automation Developer | n8n & Multi-Agent Workflow Specialist

Islamabad, Pakistan | +92 342 1505570 | contact.asimali.dev@gmail.com | [LinkedIn](#) | [Fiverr Portfolio](#)

SUMMARY

BSAI undergraduate and AI Automation Developer building autonomous, multi-agent workflows using n8n, Python, and LLM APIs (OpenAI, Claude, Gemini). Experienced in designing end-to-end agentic pipelines — from lead intake to automated response — that remove manual work from business operations. Delivered production automation for global clients on Fiverr with measurable gains in speed and accuracy.

TECHNICAL SKILLS

Automation & AI: n8n (Advanced), Make, Zapier, Multi-Agent Orchestration, OpenAI API, Claude API, Gemini API, RAG

Development & Cloud: Python, REST APIs, Webhooks, AWS EC2, Docker, Linux/Ubuntu

Databases & Tools: Airtable, PostgreSQL, Google Sheets, Evolution API, Notion, Slack, CRM Integrations

EXPERIENCE

AI Automation Specialist (Freelance) | Fiverr — Global Clients

2025 – Present

- Architect and deploy scalable backend automation pipelines using n8n, Make, and custom Python scripts for international clients.
- Engineered an AI Sales Assistant (Gmail & RFQ) that automated lead categorization and drafting, cutting manual data entry significantly and bringing response time under 2 minutes.
- Built an AI Executive OS using Airtable and multi-stage n8n pipelines for automated real-time reporting.
- Integrated disparate platforms via REST APIs and webhooks, maintaining uptime on AWS EC2-hosted deployments.

KEY PROJECTS

AI Sales & RFQ Assistant

- Built an autonomous agent (n8n, GPT-4, Gmail API) that extracts intent from inbound sales leads and generates personalized draft responses — the client's core lead-response workflow.

AI Executive Operating System

- Implemented a centralized operational database (Airtable, n8n, Make) with automated daily reporting triggers for business oversight.

WhatsApp Auto-Reply AI Bot

- Developed a webhook-driven bot (n8n, Evolution API, AWS EC2) that processes incoming queries and delivers contextual replies at scale.

EDUCATION & CERTIFICATIONS

- BS in Artificial Intelligence (BSAI) — Iqra University, Islamabad (4th Semester, Expected 2028)
- Agentic AI Program — PIAIC, Quarter 3 (2025 – Present)
- Certifications: Agent Factory Fundamentals (PIAIC)
- AI for Everyone (DeepLearning.AI)
- Intro to Python (Simplilearn)
